THE COMING OF THE GAELS

A contemporary telling of an ancient myth spanning 3 continents and 400 years taking the Milesians from Egypt to Galicia and finally to the Island of Ireland in a quest to fulfil their destiny

A story of human endeavour, of voyages, and storms, of trickery and cunning culminating in a mighty battle between the Tuatha Dé Danann (Race of the Gods) and the Gaels, descendants of the Milesians to decide the fate of the island of Ireland.

A 60 minute outdoor spectacle with a powerful narrative combines physical theatre, aerial and acrobatics with a high energy and emotionally charged original musical score immersing the audience in a mythical yet familiar world.

“ I was blown away by the production! Milesians has all the elements of a successful accessible production. The narration was skilfully lead and signed by Caroline Parker, the sound design enabled the audience to feel every drum beat through the body. The very nature of Imagineer's work, a highly visual spectacle and non-verbal story, created an equality of experience for both the Deaf and hearing audience members.”

Rachael Veazey, www.deafexplorer.com

“ Insanely brilliant!”

“ One of the most beautiful and powerful pieces of theatre I have seen.”

Audience

“ Absolutely loved this new epic production created by @ImagineerUK in collaboration with @circolumbia @rebelmanifesto.
